“ *Salina Kim was born on her mother’s birthday and passed away 18 hours later. Born to a poor family with 2 older brothers Dennis and Allen. Momma was unable to attend her burial but she dreamt of Salina’s passing and even the coffin that my aunt Betty chose for her. The dream was just weeks prior to the birth.*

BW

“ My precious big sister- I've thought of you often over the years. Wondering what it would have been like to have a big sister instead of being one. Someone to love me and defend me and protect me. Mom and dad have left this world and hopefully they found you and you are happy now. You'll have to help them get adjusted to being neighbors without fighting and fusing. I'm getting along in age now, I was born one year following your departure. You have 2 more sister and 2 brothers. We are a fractured family. One is an alcoholic that has some serious mental health problems and has never been a nice person. Your baby sister is truly the only one I care for. I don't care for your big brothers trust me when I say they are not nice people and would never give me a kind thought. I really do not have relationship with the family. Occasionally your baby sister will say something and one of her children sweet Darrah will call me outside of that no contact. I wonder if you met baby Blake when he arrived, just like you he only lived one day . He's your great nephew. He's Darrah's son and he has a sweet brother his twin and a precious big sister. She's a good momma and I'm so proud of her. I long to be where you are, it's been a horrible life really. Abuse has been constant and I've never been valued. Used a lot and mistreated but never really loved by anyone in the family. I sure wish you could respond to my letter and give me hope. I have so much to share but not here. One day hopefully I will find your resting place and gift you a beautiful headstone.

You little sister

Becky
